WHAT IS A BOND

Our bond is an un-secured high interest rate loan to the school. This loan is generated by funds given by our families, their families and friends and other individuals who are passionate about education. There are 2 investment options we have detailed below.

THE REPAYMENT STRATEGY

While this is an un-secured loan we have developed strategies for acquiring additional capital and generating new revenue streams to ensure our repayment strategy is a success.

1. **Bond repayment comes first** - This is our first debt, therefore it takes priority.
2. **Growing enrolment** - Our focus is getting us to break even. We will contribute \$5000/month into a repayment savings account.
3. **Business Loan** - We are applying for a \$250,000 business loan with the Canadian Co-operative Investment Fund to support our growth and repayment.
4. **School Fundraising** - We are launching school and marketing initiatives to raise funds.
5. **Charitable Status** - Once our charitable status is approved we will start to collect donations and these will be focused on the bond repayment.
